Programs

Basic

- **Baby Monitor:** Tells you your current Over- watch Score without needing an action.
- **Browse:** When doing Matrix searches, gain 1 Edge that is either spent immediately on that action or disappears.
- **Configurator:** Store alternate deck configuration, swap to it instead of changing two attributes.
- **Edit:** When doing Edit File action, gain 1 Edge that must be immediately spent or else it vanishes.
- **Encryption:** +2 dice when doing Encrypt File action.
- **Signal Scrubber:** Reduce noise level by 2.
- **Toolbox:** +1 to Data Processing.
- **Virtual Machine:** 2 extra program slots; take 1 extra box of unresisted Matrix damage when attacked.

Hacking

- **Armor:** +2 to Defense Rating .
- **Biofeedback:** Causes Stun (if target is in cold-sim) or Physical (if target is in hot-sim) damage with Matrix attack. This program is linked to the Attack attribute.
- **Biofeedback Filter:** Allow Device Rating or Body roll to soak Matrix damage.
- **Blackout:** Like Biofeedback, but Stun dam- age only. This program is linked to the Attack attribute.
- **Decryption:** +2 dice on Crack File action.
- **Defuse:** Allow Device Rating or Body roll to soak damage from Data Bomb.
- **Exploit:** Reduce Defense Rating of hacking target by 2.
- **Fork:** Hit two targets with a single Matrix action without splitting dice pools.
- **Lockdown:** Cause link-lock when you do Matrix damage.
- **Overclock:** Add two dice to a Matrix action.
